

Nutrition API

1. Creating an account using username, email id, password

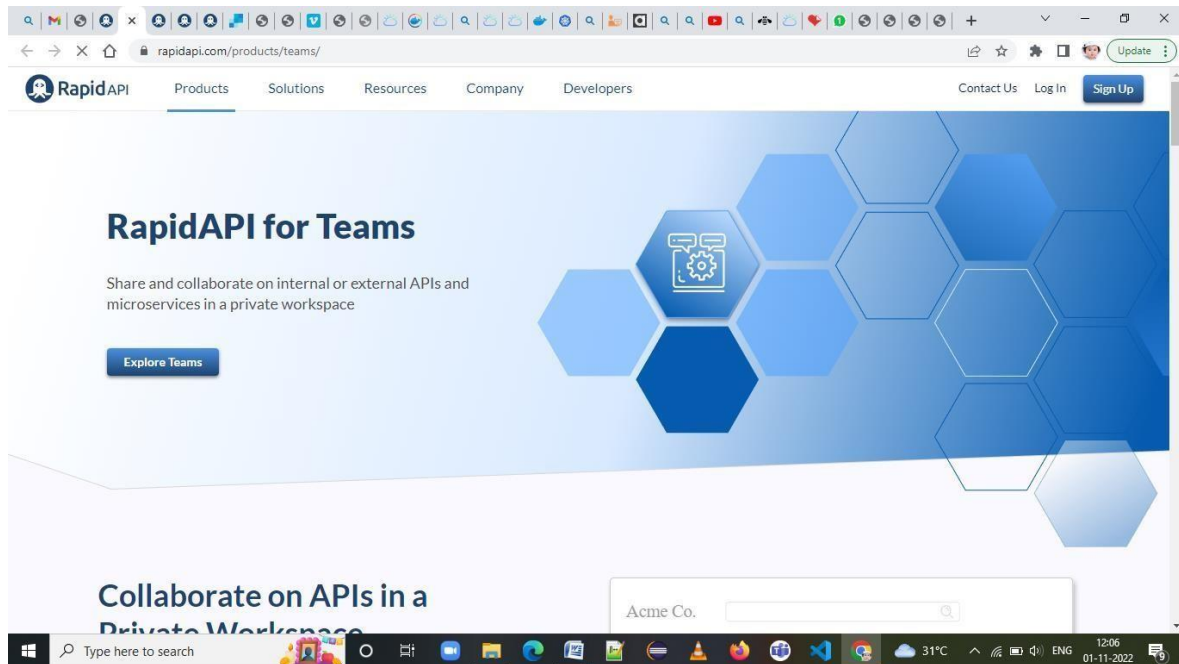

The image shows the RapidAPI sign-up page. On the left, there is a form with fields for Username (Srinivas), Email (srinivas051201@gmail.com), and Password (masked with dots). A green bar indicates the password is 'Strong'. Below the password field is a CAPTCHA 'I'm not a robot' and a 'Sign Up' button. At the bottom, it says 'Already on RapidAPI? Log in'. On the right, a blue sidebar contains the text 'Find and Connect to Thousands of APIs' and a list of features: Discover APIs, Test from your browser, Connect using code snippets, and Manage APIs from one dashboard.

2. By entering verification code will tends to perform further steps.

The image shows the RapidAPI verification page. At the top, a notification says 'The code has been sent successfully'. The main heading is 'Verify your email address to continue'. Below it, a message states: 'We've sent a 6-digit verification code to agilaganesan08@gmail.com. It will expire shortly, so please enter the code below to continue.' There is a 6-digit input field. Below the field, it says 'Didn't get the email? Resend email'. On the right, the same blue sidebar from the previous page is visible, with the text 'Find and Connect to Thousands of APIs' and the same list of features. The browser's address bar shows 'rapidapi.com/auth/sign-up-verification'.

3. This is the main page after you login

4. The Nutrition API Page

The screenshot displays the RapidAPI interface for the 'Recipe - Food - Nutrition' API. The page is titled 'Recipe - Food - Nutrition' and is marked as 'FREEMIUM' and 'Verified'. The 'Endpoints' tab is active, showing a list of endpoints on the left. The 'GET Search Recipes' endpoint is selected, and its details are shown in the center. The description states: 'Search through a large database of recipes using various keywords and ranking. NOTE: Since this method combines searching by query, by ingredients, and by nutrients into one endpoint, each request counts as 3 requests.' The 'Request URL' is 'rapidapi.com'. The 'Header Parameters' section shows 'X-RapidAPI-Key' with a value of 'SIGN-UP-FOR-KEY' and 'X-RapidAPI-Host' with a value of 'spoonacular-recipe-food-nutrition-v1.p.rapidapi.com'. On the right, the 'Code Snippets' tab is active, showing a code snippet for Node.js and Axios. The code is as follows:

```
const axios = require("axios");

const options = {
  method: 'GET',
  url: 'https://spoonacular-recipe-food-nutrition-v1.p.rapidapi.com/recipes/complexSearch',
  params: {
    query: 'pasta',
    cuisine: 'italian',
    excludeCuisine: 'greek',
    diet: 'vegetarian',
    intolerances: 'gluten',
    equipment: 'pan',
    includeIngredients: 'tomato,cheese',
    excludeIngredients: 'eggs',
    type: 'main course',
    instructionsRequired: 'true',
    fillIngredients: 'false',
    addRecipeInformation: 'false',
    titleMatch: 'Crock Pot',
    maxReadyTime: '20',
    ignorePantry: 'true',
    sort: 'calories'
  }
};
```
